

IS THERE PARTICULAR INFORMATION THAT IS ALWAYS NEEDED FOR FIT-UP? SUCH AS VALVE MODEL, DIMENSION FROM FINISH WALL FACE TO VALVE TOP, ETC? DO YOU WANT THAT LISTED HERE OUR IS THAT HANDLED LATER?

NOTES:

1. The product housing is made from cultured marble.
2. The dimensions are nominal being that the product is made from a casting.
3. Housing is made to fit existing conditions. An adapter is custom made to connect unit handle to installed valve. Therefore, some installations may require more standout "A" and subsequently a larger diameter "B".
4. Mounted with tamper resistant screws.
